GEAR REQUIREMENTS & INCLUSIONS

You will be required to carry a day pack that includes your morning tea, lunch, and snacks, a water bottle and a thermos of tea/coffee/hot chocolate and a waterproof breathable rain jacket, all provided by Alpine Walking Guides. You can add to this whatever personal items you need during the day, we recommend you carry sunscreen, sunhat, camera, sunglasses, warm fleece, beanie & gloves.

While we recommend sturdy walking boots or shoes with a waterproof liner and a gaiter, as this is a day walk, good quality sturdy runners are acceptable. Be aware that your feet may not stay as dry or as comfortable with non-waterproof footwear; this is when blisters can start to develop.

ALPINE WALKING GUIDES

The best way to dress is in layers, starting with a light weight thermal then a shirt then a warm jacket finally using a wind/waterproof/breathable jacket as the outer layer. As you warm up or cool down it is just a matter of taking off or putting on layers.

We highly recommend you bring along a beanie & a pair of fleece gloves, the weather in the alpine environment can change very quickly and this is a very exposed walk.

Much of the recommended gear above is available from Everest Sports, in Bright. Upon receipt of booking deposit, we will send you a 20% discount voucher to purchase any of the items you may need off their website, www.everestsports.com.au or instore.
